Everything on me is not regular, my THC is not regular
I'm way ahead of you
I'm at the top, no need for a measurement
Control the game like a referee
Getting money is my specialty
Who really there for me?
Who really ride for me?
Who really die for me?
Came out the fire and that shit was inside of me
I do not cry no more when I see bodies
This is a struggle, I came from the projects
Now diamonds all over my objects
Everyday a nigga run up then prosper
Ask me for it and you know I got it
Big bank, I don't need no wallet
Broke boys, y'all need to stop it
New Mazi, I'm finna cop it
Y'all niggas know who the hottest

B. Lou
