She tryna see what I like
She on my line tryna see what I'm doin'

It get her hype when I'm all in her likes
She out with her friends
I think we into it
Said I'm her type
I said why cus I'm icy
Go down and lick it
I love how she do it
One of a kind
There ain't nun like me
Don't gotta hype me I'm already knowing
I was already showing
She a freak I was already knowing
Backseat
She get on top and get crafty
Like baby girl
Do your thing and keep going
Like and I'm having my way if you ask me
Still get crafty
Get him and go
Don't ask what I mean
If you know, you know
Then you know
It get real girl you know where to go
We get dead off the liqour
I got her tweaking whenever I'm in her
Girl I be praying a lot I'm a sinner
Like wya girl I want you for dinner
Now she see I'm the one
Talking bout money girl I got a ton
And my name love
But I ain't for nun
But if that's the vibes we having fun
