

can't miss

B.o.B

Woke up after a session, drugged my self out depression
Fuck it, go get some hookah, no bodyguards, no protection
Met a fan at the valley listening since '07
Said I changed his whole life, changed a nigga perception
Flicked it up, I gave him all the cash that I could've left him
Too much shots to recall, not much food in my belly
Belly of the beast, nothing more, nothing lesser
DMX, Makaveli, now I'm speeding riding heavy
With two ladies riding with me, so you know the vibes
Blink of an eye, [?]
Spun her with right there on 85
Retainer wall to my left, somehow the coupe realign
How I run it 'cause this endangering lives
In my show I say "don't drink and drive, just smoke and fly"
I'm just saying it's hypocritical, that's the same word I despise
Not above or beneath you, just look for me when you need proof
Learned the most from women in my life, my mom, my sister and my wife
The girls you [?], the loudest be having it the least
To be honest they the biggest freaks, can't miss

Can't miss, can't miss, can't miss
They know when the shot, pow, pow, can't miss
Two shot, can't miss, two shot can't miss

I really find it ironic that time's best wasted on shit that we love
That's why it's still money, hoes and drugs
Connection [?] with the plug
Look at twin with the plug (Look at twin with the plug)
Look at twin with the plug, look at twin with the plug
All I wait for is death, I ain't scared to go to hell
At least my friends'll be there, all my friends know me well
Can't miss you anymore, toss it to the core
Now we kicking doors, ain't no 13th floor
Love struck, lust have me locked, I'm Houdini with the cuffs

Two shot, can't miss, two shot can't miss, can't miss
Two shot, can't miss, two shot can't miss, can't miss
