False Flag

B.o.B

Oh it's a funny game
Don't believe that it's all the same
About that flat thing that I just said
Was cause there's something upon my head

Riding in the fast lane with the top back
Speeding no brakes where the gas at
Crooked ass cop push your cap back
So you already know what a strap back
Man you already know when you in beast mode
Man you already know a nigga pass that
Everybody false flag, man you already a nigga blessed
You already know, you already know
You already know, you already know
I could tell you cause you already know
You already know, you already know
You already know, you already know
I could tell you, but you already know

Sick of running with my hands up
I'm just fucking all the bands up
Simple man I don't demand much
I'm just trying to roll these grams up
What you wanted me to say to you?
Give you something to awaken you
Find a topic that's conveyable?
A prophecy that's inescapable?
This the world that they portray to you
Sovereignty is unattainable
Justice, too, is unavailable
The judge ruling is persuadable
Slavery is generational
Who you worship? Who you praying to?
Watch these fakers what they say to you
You see the truth it's unmistakable
No, they wouldn't lie to me dog
No, they wouldn't like to me, bro
No, they wouldn't lie to the world
No, they wouldn't lie under oath
No man can be high as the law
The law that was sworn to uphold
It's too late, the door has been closed
Too many stories' been told

Started out for the love of the song
Woke up and saw the blood on the phone
Woke up and seen the sun, it was cold
Why or where the fuck did I go wrong?
Where has the time gone, where has the time gone?
Lost in the time zone, must of got the time wrong
Where does the time go?
I don't wanna die alone, don't wanna die alone, die alone

At a glance, you'll never truly understand
Cascading thoughts will form an avalanche
Eventually the shit gonna hit the fan
Niggas that sick of suffering got demands

Climb up the mountain just so we can stand
Big brother hang you up by your pants
No more religion, no more believers
To people that put the law above the land
It's a scam like Iraq and Iran, Afghanistan
Creating targets, create the martyrs
Democracy artist, good-hearted people enlist to fight
For a system that strips all your rights
And the bitches that live [?]
So potent that when they're administered people turn sinister
The retina, the all seeing retina
The mark of the beast, the mark of the predator
God bless America, god bless the regular
Far from the regular
Don't kill the messenger, bitch

Ride in that lane with the top back
Speeding no brakes where the gas at
Crooked ass cop push your cap back
So you already know what a strap back
Man you already know when you in beast mode
Man you already know a nigga pass that
Everybody false flag, man you already a nigga blessed

You already know, you already know
You already know, you already know
I could tell you cause you already know
You already know, you already know
You already know, you already know
I could tell you, but you already know
You already know, you already know
You already know, you already know
