

## Flatline II

B.o.B

Tesla shit on Edison, food should be your medicine  
Started dropping elements, shit been crazy ever since  
Food should be your medicine, Tesla shit on Edison  
Started dropping elements, shit been crazy ever since  
Don't ask me who I'm voting for, Donkey or a Elephant  
I do not have a preference, now miss me with that extra shit  
I am not a pessimist, I'm just too intelligent  
I learned to see the world the way it is and make the best of it  
A leader to a state is like a God to a Reverend  
One hell of a interest even better when I'm exiting  
Brand new [?], Ain't got time for questioning  
Shooting through the rhetoric, I think I need an extra clip [?]  
I ain't got a ghost writer, this is not a reference  
I switch the style up, Eddy Gordo on some Tekken shit  
Whoo!  
Evidence, plus I got the evidence  
Mother Earth, eh, what's up bitch? What's your measurements?  
What if Donald Trump was really Mexican? What if a Black Man never was President?

Flatline  
Navigating the field of landmines  
Black crime, Black minds  
There's no superior bloodline, Yeaup!

Fuck award shows, we need justice in the courtroom  
When I get to talking real shit, they say "You bugging dude."  
It's gonna take more than getting some trending [?] on Twitter  
It's gonna take more than fucking COEXIST bumper stickers!  
The question, I always hear this question, "How did you get into the music business, were you let in? Or blessed in?"  
I'm guessing, I never signed my name in blood or sacrificed my best friend  
I got as far as I could go before I hit a dead end  
Sit back and let it set in  
Hollywood loves making niggas wear dresses  
This is where I step in  
And I know you don't wanna hear it  
Nigga's writing conscious lyrics, just to sell out concert tickets  
Nigga's buy or bought a Polo, Polo never sponsor niggas  
Tommy never one of the niggas rocking Hilfiger  
Niggas doing charity to be a real nigga, but when the camera's off they don't wanna deal with you

When I had cured these people, sick as hell, and lupus, and herpes, and blindness, I was happy!  
I said "Now, I can go to all the leaders, I could go to Minister Farrakhan [?] I could go to Jesse Jackson,  
I could go to Al Sharpton, I could go to Oprah Winfrey, but what I found out, I was mistaken.  
I was wrong. They are NOT interested in the healing of any black people  
That's an explosive claim  
That is not an explosive statement! That is a reality!  
There isn't a black leader in America, that is interested in the health of the black race  
You say that because they refused to interact with you?  
They are not in the position to respond.  
If they were, my first case of Aids was cured in 1984.

And since then, we've been curing people of lupus and herpes and cancer and blindness,  
not ONE black leader ever said "Well let us help the brother."

BANDZ!  
Flatline  
Fooled us for the last time  
Flatline, Flatline  
There's no superior bloodline, dead

(Ding!) Lower Ground Floor  
(Ding!) Ground Floor  
People asking me, like "Why Bobby Ray saying all this crazy ass shit?  
You think he really means it?" Like this shit ain't crazy, this shit is real  
, dawg.  
He's always been rapping real shit
