

## Goodnite

**B.o.B**

My soul is getting weary, weary  
And I know the ending is nearing, nearing tonight  
So just say goodbye and kiss your dreams goodnight  
So just say goodbye and kiss your dreams goodnight

So just say goodnight to your dreams  
Because tonight is the night of the beast  
I am not frightened, I'm delighted to speak  
When the time comes, until the night we will lead  
That's why I decided to B. O. to the B  
So, one time for the streets  
One time for all the minds hypnotized by TV  
Because everything is just a spiral to me

Goodbye, say goodbye  
Say goodbye

So get your hands up high  
No, don't be shy, raise em up to the sky  
Because we will survive  
Yeah, storm after storm, there's still sunshine  
So can you feel the vibe?  
Yeah, just like yeast, I'm a major rise  
So just say goodbye  
And just kiss it goodnight when the day arrives

[B.o.B.] So just say goodbye and kiss your dreams goodnight
