

## Ms. Professional

B.o.B

You so professional  
With yo 9 to 5  
Try to make some revenue  
Standing five foot five  
Looking straight incredible  
But the guys will be lying  
Really they just scared of you  
So girl I am telling you

Well give it to me right now  
I could use your soul  
And we can do it right now  
Like we are all alone  
And now you wait to do  
The things we're made to do  
What we're made to do we ain't ashamed  
So girl give it to me right now  
You're just like a pro

You know I am watching whenever you are on clock  
I hope you'll never take a break I hope you won't stop  
Imaginations of me on the bottom, you on top  
Every single time you break it down you get them  
Every time you dress you bless them  
You fresh to death them  
I guess I have to resurrect them think of all your killing  
Cooler than a cucumbers two thumbs up  
With the high heels and your suit on yes you do you know
