We all wear the mask, metaphorically speaking
I just took a half and I'm peaking
Obama runtz ina Dutch I'm smoking
Elements 2 I'm reloaded

Behind the mask
Dreams and fears collide
It's a facade if ya face card decline
Acting like another nigga
Have some respect for yourself
How you gon Chase another nigga wealth
Yea... We all wear the mask
If you were to go
It'd be one less nigga wit a podcast
If I was not the goat my flow would not provoke you hoes the globe get overt hrowed
They couldn't go toe to toe, they tried to buy me out wit TV shows, I told 'em no!
I am the one to drop the bomb, they wanted some, I flashed the Tommy Gun I'm holding
And what you do?
You sold ya soul
You folded
Which ones for show
Which ones ya Heaux
Which ones ya bitch
Which ones ya beard
Which ones ya throw away?
Give 'em here when ya go away
I'm honored
It's an honor
When I keep getting stalked by the blogs getting calls it's an honor
I say it's an honor
Like the saying goes if you can't come in her then you gotta come on her
It's a honor honor honor

We all wear the mask, metaphorically speaking
I just took a half and I'm peaking
Obama runtz ina Dutch I'm smoking
Elements 2 I'm reloaded

This is a world that I can't take seriously
I just think differently
All the ones you call leaders got low integrity and low bone density
It don't make sense to me
When they go low I go lower
Act a Ass like a Hard E-R
Playing good guys never enough, is it?
Deep immersive lyrics
Overthrowing physics
Is it flat? This ain't even earth, is it?
Why debate on the shape of the prison
Elevate and then escape, fuck the system
I'm not from outer space
I'm from space time
You bit my style you a child a mine
Fertilize the game like formaldehyde

Round the hoes you be acting like a tough guy like you bust shots mean you must not
Acting like a king pin like you Pablo like a drug lord pshht aight
Telling on yourself in ya songs album cover might as well be a mugshot
Ya niggas softer than some teddy bears in a bathtub bout to burn this shit down
Rest in Peace to Left-Eye

We all wear the mask, metaphorically speaking
I just took a half and I'm peaking
Obama runtz ina Dutch I'm smoking
Elements 2 I'm reloaded

And I'm peaking
Say she wanna link, is it sneaky?
Stud wit a kid, kinda kinky
Thumb in her but I'm slide to the pinky

And I'm peaking
Say she wanna link, is it sneaky?
Stud wit a kid, kinda kinky
Thumb in her but I'm slide to the pinky
