

Fall In Love

B. Smyth

Yeah

Hey, run me back twenty

She made me fall in love with her

(Got me singing like)

She made me fall in love with her

She made me fall in love with her

(Got me singing like)

She made me fall in love with her

She made me fall in love, love

And it, and it, and it's all over my face

You say I'm moody, my boo, bae

My intermission away from doomsday

I get offended, don't talk like you lose me, lose me

You know that you never will

You will never not know how I really feel

I will never walk away, no, this is real

I am not killer but I keep it still

Shit's clear, no I can't hear 'em talking

No more options over here, it's just me and my shorty

Know I hate when she leaves me, obviously

I got problems without you, she all that I'm seeing

Ooh, ooh

She made me fall in love with her

Got me singing like, ooh, ooh

She made me fall in love with her

Ooh, ooh

She made me fall in love with her

Got me singing like, ooh, ooh

She made me fall in love with her

I can't wait for your love, I need more, I need more

I can't wait for it (I'm on my way)

Conversation and wine, all these things on your mind

I got a taste for it

Know I sound like I'm fucked up 'bout you

I don't wanna wake up without you

Tell me what you want

Half on me baby, I want me one

Oh oh oh, yeah

You know that I'm always here for real

You know that you stuck with me and I don't share

I don't care, I need you with me everywhere, yeah

I don't need to keep it cool, all I need is you

Ooh, ooh

She made me fall in love with her

Got me singing like, ooh, ooh

She made me fall in love with her

Ooh, ooh

She made me fall in love with her

Got me singing like, ooh, ooh

She made me fall in love with her
