

You want it bad
I want it bad
Yeah

Girl your body's so sweet
It get hard to think
Girl I can't concentrate
Sending pictures to me
Sex on my screen
Gotta a nigga contemplating
You gotta chill
You know shit gets real uh
I can't work like this
Even though I love that shit
(Dam fuck it)

I'm on my way right now
All I gotta say right now
Cause that ass ain't safe right now
It's fucking traffic in my way right now

Girl I don't wanna condone it
You be knowing
You be knowing
And I can't handle that shit
It goes on and on and on
And we be going
We like rabbits and shit

I'm on my way right now
All I gotta say right now
Cause that ass ain't safe right now
It's fucking traffic in my way right now

Know I'm tryn work
Girl your throwing me off
Don't get me wrong
You know I love it all
I'm watching you in the streets
Watching you in the streets
I be going strong
Strong for you and me
Mmm
Get the passport
Sky miles on the dashboard
Anything you ask for
Way more than you ask for
Thug red
Don't do roses on the bed
You like hunnits instead

I'm on my way right now
All I gotta say right now
Cause that ass ain't safe right now
It's fucking traffic in my way right now

And if you want more

I'ma give you more
Girl I know you will
You always want more
Girl I know you will
You always want more
Yea
Girl I know you will
You always want more
Girl I know you will
Mmm
Know that pussy wet
Mm
