

Think

B. Smyth

Don't fade away
Late, lately, lately
Don't fade away from me

Lately I've been on my own dick
Waitin' for my baby to quit playin' and come home shit
I just want some energy, don't wanna be alone shit
I don't wanna say your name 'cause every time I do I think

Think about you, thought I was all you needed
Think about you, thought you would never leave me
Got my hopes up for this
But that route was scenic, that's all I'm stuck with

Damn, you're selfish
Damn, you're so selfish
How long till I break, can't help it
Can you save your essence

Just save, just save it
Don't fade away
Don't stray away from me

Lately I've been on my own dick
Waitin' for my baby to quit playin' and come home shit
I just want some energy, don't wanna be alone shit
I don't wanna say your name 'cause every time I do I think

Think about you, thought I was all you needed
Think about you, thought you would never leave me
Think about you, got my hopes up for this
But that route was scenic, that's all I'm stuck with

Damn, you're selfish
Damn, you're so selfish
How long till I break, can't help it
Can you save your essence

I'm callin' your phone and gettin' the dial tone
Damn it baby, unblock me
This like the third number I done changed to
Promise that ain't gon' stop me
I'ma jump in that Range and drive fast
Speedin', I'm tryna get to you
Girl, I'd be damned if I'm bout to lose you
Swear Imma lose it, I'm tryna be truthful

How long till I break
How long will it take till you wake up
Babe, what do you say
Haven't seen your face so long

Baby, I've been on my own dick
Waitin' for my baby to quit playin' and come home shit
I just want some energy, don't wanna be alone shit
I don't wanna say your name 'cause every time I do I think

Think about you, thought I was all you needed
Think about you, thought you would never leave me
Think about you
But that route was scenic

Aye uh, aye uh, aye uh
