Can we get back
To no strings attached to you
Cross my heart and hope to die

I tell you once, I'll tell you twice
Ain't got all night oh

You're not getting hurt [?]
Like it should be
I know what's on my mind
Cross my heart and hope to die
I made mistakes but

I tell you once and I tell no lies
It only works when we multiply
I tell you once and I tell you twice
It only works when we multiply

It only works when we multiply
It only works when we multiply
It only works when we multiply

I need to keep it casual just on the side of
