

AURA

B Young

If I tell you baby I'm not sure, not sure
Would you let me in like open doors, open door
If I tell you baby I want more, want more
Would you promise me that you won't go, won't go
Don't go, don't go

Baby enough, you know I been living a sinner
So long I been looking for freedom
I come a long way I been healing
Gimme energy, energy
Enough, girl I'm not usual a drinker
But I think I can handle a few more
Girl I been falling in love with your aura

Baby I'm not sure, not sure
Would you let me in like open doors, open door
If I tell you baby I want more, want more
Would you promise me that you won't go, won't go
(Gimme energy, energy)

One two, three four
Loving how you running like a detour
Small love, need more
Always up and down like a see-saw
Ah ah
Making you feel so alive
Baby just take my advice
Ain't no one telling you twice
You know I'm always doing you right
Because nobody gon' do you like I do
Take you 'round the world like you viral
Bring you back to life, like revival
Whoa
I want to need you like survival
Always be right beside you

If I tell you baby I'm not sure, not sure
Would you let me in like open doors, open door
If I tell you baby I want more, want more
Would you promise me that you won't go, won't go
Don't go, don't go

Baby enough, you know I been living a sinner
So long I been looking for freedom
I come a long way I been healing
Gimme energy, energy
Enough, girl I'm not usual a drinker
But I think I can handle a few more
Girl I been falling in love with your aura
(Gimme energy, energy)
