

## Differences

**B Young**

Baby when we fucking you should look me in my eyes, baby tell me what you want it like

When I hit it leave you hypnotised, giving you the kiss of life, feeling like you traumatised

And I know we got some differences but we can put em' to the side baby pull it to the side

Hmm

We can put em' to the side baby pull it to the side

Girl take a hit, let's trip

Trippin I'm sippin we getting lit

No script but you playing the villain

She biting lip, on shit

Got her sliding and slipping

She love it rich in the Ritz

And I'm fucking while drippin

Girl you know baby bring that shit here don't be feeling like no stranger

Stressing bout' your life we can deal with all that later

Save all the confessions I ain't tryna be your saviour

Baby all this flavour got me sippin with no chaser

You know

Baby when we fucking you should look me in my eyes baby tell me what you want it like

When I hit it leave you hypnotised giving you the kiss of life feeling like you traumatised

And I know we got some differences but we can put em' to the side baby pull it to the side

Hmm

She a freak, from the streets

Girl you keep me on my toes

All this heat in the sheets

Says she love it how I'm froze

All these diamonds with the rose

You can slide in to the Rolls

You can climb on take it slow

You can keep on all your clothes

Hmm

Baby pull it to the side don't have to take it off

Baby nothing lasts forever girl that's good enough

Cause baby I ain't into loving

Baby we don't need discussions all you need to know is
