

# NO SCRUB

**B Young**

Baby I just wanna find your love  
Got my mind singing like woah woah woah woah  
I know you don't want no scrub  
Heard you singing in the club like woah woah woah woah

All the mandem wish me luck  
Pulling up my pants like that's enough (hmm hmm)  
All this rizz might clean up  
You know I'm with the gang and we all G'd up (hmm hmm)  
I don't wanna get too drunk  
Just pour me one shot of this tequila (hmm hmm)  
I just wanna find my love  
And I ain't gonna stop until I find me one (hmm hmm)

All this time she was standing there  
She never took her eyes off me (hmm mm mm)  
All this henny got the best of me  
I'm struggling with memory (hmm mm mm)  
I think I'm moving to the same girl twice  
All this game is in jeopardy (hmm mm mm)  
And I been smoking on this gas all night  
So I'm loving this energy (hmm mm mm)

Baby I just wanna find your love  
Got my mind singing like woah woah woah woah  
I know you don't want no scrub  
Heard you singing in the club like woah woah woah woah

Baby tell me where you get all these distractions  
More energy, more passion  
Just wait till I get my hands on you (hmm mmm)  
Body coming like law of attraction  
I can only imagine  
Just tryna get a reaction  
From you  
So we pop champagne  
Remember when bro had to cop that range  
Now we got stones that will turn man's grave  
I wanna see double like it's Turnpike Lane (hmm hmm)  
Baby got no shame  
Giving me brain that can turn man sane  
Had to switch lanes 'cause I got no claims  
This baddie said she can never love no lame (hmm mmm)

Baby I just wanna find your love  
Got my mind singing like woah woah woah woah  
I know you don't want no scrub  
Heard you singing in the club like woah woah woah woah
