Baby suttin' ain't right
Always tryna hit the brake light
Saying fuck love you wanna waste time
But when you're waved you hit my main line
Hmm
Girl you know I'll always make time
When you wanna smoke and get high
Anytime you hit the Face Time,
I'll roll one we can catch the same flight
Hmm

Don't be afraid to say that you love me
Girl it's okay you don't have to be low key
Don't be ashamed to say that you need me
Show me your pain girl I'll raise you up quickly
Don't be afraid to say that you love me
Girl it's okay you don't have to be low key
Don't be ashamed to say that you need me
Show me your pain girl I'll raise you up quickly
You know

You say you've seen some better days but all that changed when I'm with you
Baby tell me how you feeling
Hmm
Is shit the same when I'm with you?
So baby hit me when you get the chance
When you need love come take mine
Been around and I've seen shit
Trust me girl we on the same side
Trust me girl we on the same time
Hit me up we'll exchange minds
You can hit me on that late night
I don't mind losing some sleep keep me energized
Girl there's more meets the eye, no need to lie
We both know you're a freak you just in disguise

Don't be afraid to say that you love me
Girl it's okay you don't have to be low key
Don't be ashamed to say that you need me
Show me your pain girl I'll raise you up quickly
Don't be afraid to say that you love me
Girl it's okay you don't have to be low key
Don't be ashamed to say that you need me
Show me your pain girl I'll raise you up quickly
