

Ride For Me

B Young

Yeah

I hope that things don't change 'cause I love it this way
I pray that these feelings don't fade
You come into my life and I need you to stay
'Cause I'm feeling some type of way
So baby would you roll with me?
Baby, would you ride for me?
Baby, would you roll with me?
Baby, would you ride for me?

Baby, take off your make up (Uh-uh)
Fresh face like you wake up
You can slap on my tracksuit
I'll Uber Eats us some katsu (Ha)
Girl, we can Netflix and chill
I know you know the deal
Just pick any low rated film
'Cause we both got time to kill
And the world moves so still
When I'm laying here with you

I hope that things don't change 'cause I love it this way
I pray that these feelings don't fade
You come into my life and I need you to stay
'Cause I'm feeling some type of way
So baby would you roll with me? (With me, yeah)
Baby, would you ride for me?
Baby, would you roll with me? (With me, yeah)
Baby, would you ride for me? (Yeah, yeah)

It's like you read me, girl, you just know what to say
All this bad energy goin' away
And when I'm feeling low, just one look at your face
And everything else feel okay
Hmm, so baby hit up my line, I pree for FaceTime
You know just why, oh, we can take time
See you later on
Baby girl with nothin' on
You know just how to get ready for me

I hope that things don't change 'cause I love it this way
I pray that these feelings don't fade
You come into my life and I need you to stay
'Cause I'm feeling some type of way
So baby would you roll with me?
Baby, would you ride for me?
Baby, would you roll with me?
Baby, would you ride for me?

And we jump in the ride, ride
With you on my passenger side
Yeah, I be cruisin' all night
Those the only settings that really feel right
We can catch a vibe, vibe
Yeah, sip juice and get high
Yeah, as long as you're on my side

Those the only settings that really feel right

I hope that things don't change 'cause I love it this way
I pray that these feelings don't fade
You come into my life and I need you to stay
'Cause I'm feeling some type of way
So baby would you roll with me? (With me, yeah)
Baby, would you ride for me?
Baby, would you roll with me? (With me, yeah)
Baby, would you ride for me?
