

Never Gonna Stop

B3

You see us bustin up the floor
Well if you're not impressed - then wat cha' lookin' at
Yeah I know - we're gonna do it til we drop
And we're always doin' it to the max - and we're never gonna stop

I feel so alive
Can you feel it - here it comes again

We can do it at the party - we can do it in the club
Never gonna stop
We can do it together - we can do it alone
Never gonna stop
We can do it all night- and we can do it all day
Never gonna stop
That's the way it is - and that's the way we play
And we're never gonna stop

The baseline's shooting up your spine
And the beat calls your name -what 'cha gonna do
That's right - just get that booty on the floor
You got to dance 'til you drop - 'til you dance no more

I feel so alive
Only the music can take me so high - high - high - high

We can do it at the party - we can do it in the club
Never gonna stop
