

When you come in the room all I can see is you
Staring in my eyes girl you've been watching me too
Running out of time so what you tryna do
I'm tryna creep in, put on something see through

Now that we're here in the same room
Really only one thing to decide
Will you be playing hard to get tonight
I'll pull those panties over to the side
And let me slide through

Choice is yours, it's your move
No need to be afraid to take a shot
'Cause I'ma give you everything I got
All that I got

Now that you got me where you want me
Say the word and let me fall off in the deep
I won't stop until you tell me that you weak
Now it's time for you to show me you a freak

'Cause I got you where I want you
Screaming beggin' me to give you something deep
Girl that's what you here for
Say you wanna make it disappear more
Baby that's deep

Girl you nasty
A little classy
I'm gonna do girl what you ask me
Bite on your ass cheek
Girl I don't know what you waiting for
Act like you ain't sure
That them panties gonna hit the floor
When you hit the door

Now that we're here in the same room
Really only one thing to decide
Will you be playing hard to get tonight
I'll pull those panties over to the side
And let me slide through

Choice is yours, it's your move
No need to be afraid to take a shot
'Cause I'ma give you everything I got
All that I got

Now that you got me where you want me
Say the word and let me fall off in the deep
I won't stop until you tell me that you weak
Now it's time for you to show me you a freak

'Cause I got you where I want you
Screaming beggin' me to give you something deep
Girl that's what you here for
Say you wanna make it disappear more
Baby that's deep

Let me know if you open
For me to dive in your ocean
When I'm finish you'll know
I'll leave the bedsheets soaking
No time for no conversation
'Bout action baby not spoken
No distraction baby I'm focused
Leaving that nookie I'm smoking

Baby inhale and take it deep, baby let me see
How far you can take it when I give you all of me
Told me you would eat it so I'm tryna see you eat
Hope that you can show me just how far that it can reach
That's deep

Now that you got me where you want me
Say the word and let me fall off in the deep
I won't stop until you tell me that you weak
Now it's time for you to show me you a freak

'Cause I got you where I want you
Screaming beggin' me to give you something deep
Girl that's what you here for
Say you wanna make it disappear more
Baby that's deep
