

# Company

Baauer

Feels like this moment has already gone, yeah  
Feels like a second ago we were young, yeah  
Put down your cards, baby, let's have some fun, boy  
Seems like a moment that's already gone  
(Seems like a moment that's already gone)

'Cause you got my head spinnin' 'round  
Spinnin' how you like  
It's been days since I could breathe  
Now I breathe just fine  
Maybe it's the wintertime, maybe it's the cold  
Maybe I'm just here alone

Just want your company  
Just want your company  
Just want your company

Feels like a second ago, we were young  
Do you still remember our favorite song?  
Kept all the words on the tip of my tongue, boy  
Think it had ended before it begun  
(Think it had ended before it begun)

'Cause you got my head spinnin' 'round  
Spinnin' how you like  
It's been days since I could breathe  
Now I breathe just fine  
Maybe it's the wintertime, maybe it's the cold  
Maybe I'm just here alone

Just want your company  
Just want your company  
Just want your company

All I wanted was always  
All I want in the world is to play back, to play back  
All I wanted was always  
All I want in the world is to play back, to play back
