## **Killer On The Road**

## **Babes in Toyland**

When I saw the sign, it was the first day Heading south to the north I went the long way I came back What's left you left me I left you You-turns constantly No stopping no stopping now

How many How many killer on the road

I see the way home, the exit's closed now Objects are closer than they appear The sun is in my eyes and though I can't see you If I don't see you anymore I'd be O.K. No stopping no stopping now

How many How many killer on the road

Punch up your little punching bags How'd you like it up your ass? Little man little man with a plan How you gonna knock their lights out? Little man little man in a van You've got a flat tire now watch out Little man little man with a tan How many have you had about? Punch up your little punching bags How'd you like it up your ass? Little man little man with a plan How many have you had How many have you had about?
