

Here For You

Baby Bash

I will be here for you
If you need me someday
Whether we still got love
Or we've gone our separate ways

I will be here for you
You can call me on the phone
Just so you know oh
That's you'll never be alone

I heard 'em say
Just try and reach out to somebody yeah yeah
And it's been so long
Since you and I talked I'm so sorry
But I know that you know
That I'll always be here if you need me
And I hope that you'll call
If you're drowning alone in your feelings

I will be here for you
If you need me someday
Whether we still got love
Or we've gone our separate ways

I will be here for you
You can call me on the phone
Just so you know oh
That's you'll never be alone

Just try and remember when your world's crashing down
Pick up the phone now and I'll always be around

I will be here for you
If you need me someday
Whether we still got love
Or we've gone our separate ways

I will be here for you
You can call me on the phone
Just so you know oh
That's you'll never be alone
