

Roll It Up

Baby Bash

Roll it up for me sugar
Roll it up for me honey
Roll it up, roll it up, roll it up
I feel so lucky

You and me, rolling trees
We got a real thing going on tonight
Let's explore, let's roll tomorrow
So we can elevate together

Roll it up for me sugar
Roll it up for me honey
Roll it up, roll it up, roll it up
I feel so lucky

Roll it up for me sugar
Roll it up for me honey
Roll it up, roll it up, roll it up
I feel so lucky

Stars so bright
The vibe is right
I can smoke with you forever
Girl, you mean
The world to me
Baby girl, it's now or never

Roll it up for me sugar
Roll it up for me honey
Roll it up, roll it up, roll it up
I feel so lucky
Roll it up for me sugar
Roll it up for me honey
Roll it up, roll it up, roll it up
I feel so lucky

So many flavors that we both really love
We spark it up and blow the smoke to the heavens above
You turn me on rolling papers and blunts
Them weirdos hating but we don't give a fuck
'Cause we toasting, cruising and coasting
Girl, we in motion, showing true devotion
And girl, you got the notion and I'm really hoping
We can marinade all night and keep smoking, smoking

Roll it up for me sugar
Roll it up for me honey
Roll it up, roll it up, roll it up
I feel so lucky
Roll it up for me sugar
Roll it up for me honey
Roll it up, roll it up, roll it up
I feel so lucky
