

My skin isn't soft like the people I love  
It is rough it is blemished like me  
My hair does not fall like the waves in the ocean  
It's messy and damaged unclean  
And God I try hard to fit any place

Put a smile on my face but I can't change  
And I'm tired  
I'm just tired  
I try to be just like everyone else  
No one will love you if you can't love yourself  
Is that true  
Do you hate me too

When I'm floating like a rain cloud  
And I can't hear what you say  
Hold me near let the world disappear  
I'm so close yet I'm so far away

Before the storm even started  
I knew it would be this way  
I fought for so long against everything wrong  
But I'm the reason that I'm not okay

Feel all the shadows and darkness creep in  
That's when I know it's about to begin  
Never gave me a chance  
No I never could win  
I will forever mourn  
What could have been

My body's not made in the most perfect shape  
I just feel clumsy and cold  
My heart is not strong I just pull it along  
Dragging all of this weight gets so old

And God its all wrong I just don't have the strength  
To do this all again even for one more day  
I am tired  
I'm just tired

I need to get better I need to find help  
But no body loves me 'cause I hate myself  
And it's true  
What else is there to do

When I'm floating like a rain cloud  
And I can't hear what you say  
Hold me near let the world disappear  
I'm so close yet I'm so far away

Before the storm even started  
I knew it would be this way  
I fought for so long against everything wrong  
But I'm the reason that I'm not okay

Feel all the shadows and darkness creep in

That's when I know it's about to begin  
Never gave me a chance  
No I never could win  
I will forever mourn  
What could have been
