Baby Queen

I met a boy on the Internet, now  
I can make him up inside my head, and  
He can be whatever I project him  
I can just do this all from my bed, yeah  
I met a boy on the Internet, it  
Kind of suits me that we don't have sex, I'm  
Super self-conscious and mad depressed, and  
I don't feel anything on my meds, yeah

I'm not romantic, I'm super lazy  
I took the mirror off the wall because I hate me  
I'm suicidal, I should sedate me  
'Cause Google diagnosed me twice with ADHD  
I've got a boy crush, he's never met me  
And if he ever did, I bet he wouldn't get me  
I'm such a stoner, I lack emotion  
I fall asleep at night and seven tabs are open

It's kind of nauseating that I've been online dating  
At least my heart's not breaking, now that I'm online dating  
I told my mom "Stop hating, it's only online dating"  
At least my heart's not breaking, now that I'm online dating
