

Missn Piece

Baby Smoove

(I just told Richie we rich)

You know my life just like a puzzle, I feel you the missin' piece
The streets just like a jungle, I been swingin' from the trees
My outfit got cleared through customs, I been shoppin' overseas
I got addicted to this lifestyle, codeine and ERD, yeah
You know I can't live without you, but you still gon' up and leave
I could give this bitch the world, she won't appreciate a thing
Shouldn't've seen the benefits, you ain't believe in my dream
I know it's me against the world now 'cause you ain't on my team

Brand-new foreign, it just came in, I built it months ago (Boy)
I can't play, if that bitch stress me, I build another ho
Won't be a second time they test me, I leave you in the smoke
I'll never let them boys arrest me and tell what I know
I'm in the 'yo, I got one-fifty on me like I'm Cairo
I can't tell you why them niggas hate, the hell if I know
It ain't one statement out that got my name and that's on my soul
You know I overcame that trial detainment, that's all she wrote it
I know I made it out, I still go back 'cause I'm a hero here
Niggas die if they say my name, ain't think that I'll smoke them
Always the niggas who ain't doin' shit that act like you owe them
These niggas groupies, they just gossip, truth be told, they don't know him

You know my life just like a puzzle, I feel you the missin' piece
The streets just like a jungle, I been swingin' from the trees
My outfit got cleared through customs, I been shoppin' overseas
I got addicted to this lifestyle, codeine and ERD, yeah
You know I can't live without you, but you still gon' up and leave
I could give this bitch the world, she won't appreciate a thing
Shouldn't've seen the benefits, you ain't believe in my dream
I know it's me against the world now 'cause you ain't on my team

I try to cater to your needs, buy you gifts, we out to eat
You can go shoppin' all you want long as I got you all to me
If you told me you want Mars, I'd probably have it by next week
If you say you want the stars, I'll get you more than you can see
You're the I see no flaws in, the one who I believe
I wanna ask you, but I can't 'cause that mean love can still breathe
I know 'cause of you, now, lovin' me, it won't be easy
You done showed me more than once that you don't care and you don't need me

You know my life just like a puzzle, I feel you the missin' piece
The streets just like a jungle, I been swingin' from the trees
My outfit got cleared through customs, I been shoppin' overseas
