

Why you telling me that it could never be the same?  
I been taking pain killers but I still feel the pain  
I like you just like that, you ain't never gotta change  
I think about you all day, you be all on my brain  
I'ma put you on something, you ain't dealing with a lame  
I can't seem to keep you happy, it's gon' drive me insane  
You be all in my ear, you just whine and complain  
I ain't come to you for that, you just push me away

Seem like every other day, you just wanna debate  
Shit, the way you treat me, you don't want me to stay  
Yeah the way they treat me, you don't want me to stay  
Ayy, you don't want me to stay  
How you telling me I'm wrong if I feel the same way?  
How you do the shit you do then think it's okay?  
I ain't never lied to you, never did nothing lame  
You don't appreciate me, you be giving me away  
I gave you everything I have, I don't think it was enough  
'Cause you never satisfied, I could never do enough  
These scars too deepm I could never ever trust  
You don't care about me so you don't care about us

Why you telling me that it could never be the same?  
I been taking pain killers but I still feel the pain  
I like you just like that, you ain't never gotta change  
I think about you all day, you be all on my brain  
I'ma put you on something, you ain't dealing with a lame  
I can't seem to keep you happy, it's gon' drive me insane  
You be all in my ear, you just whine and complain  
I ain't come to you for that, you just push me away
