

## All I Want Is Love

Babybird

Your heart is like a swarm of bees  
A little breeze that makes a sound  
I want to climb up  
You want to climb down  
You want to run  
I want to freeze  
See my heart, it's on the outside  
Boom boom, you smell the blood  
Show me know, pretty please  
Where'd you hide the love

All I ever really wanted  
All I want is love

There I go, once again  
Turns it round like a big truck (?)  
Filled your head like a cb  
All scrambled and fucked-up  
Got stung on my little tease  
It's the little things that make the big disease  
So now you say, you say to me  
Where'd you hide the love?

Chorus

Now my heart's that swarm of bees  
My head buzzes on my knees  
I want my feet to run away  
I want you here to stay  
To ease away all I said  
To put my heart inside your head  
I want to hear you say it every day  
Where'd you put the love?

Chorus
