

Dive

Babybird

It's a beautiful radiation
The world's bleeding on my TV screen
I don't need to leave my armchair
Let it come to me

Slip it over like an electric blindfold
Now I see sunshine and a swimming pool
I don't care if it's empty
I'm diving in

Ride ride on it
Drive drive through it
Dive dive in it... it's shallow
Drink drink it
Love love it
Suck suck it... and swallow

I hit my head on the floor
Split my skull like a hammer
I don't care that I feel bad
I'm still tuning in

There's nothing hidden in the meaning
No little surprise
It's all in the smile
Not behind my eyes

Ride ride on it
Drive drive through it
Dive dive in it... it's shallow
Drink drink it
Love love it
Suck suck it... and swallow

Crush heads on it
Blow holes through it
Hide hide in it... it's hollow
Get thrown off it
Get back on it
Don't turn back... don't follow
