```
Here you go
You have the power
To turn the rain off
Leave the shower
Start the plane
Stop your brain
Like a flower
Get away with you
Get away from me
Get away from all of it across the sea
Get away with you
Get away with me
Get away with all of it across the sea
When you get there
Don't let your brain tease
Just let the suncream
Burn your knees
Feel the sunshine
Empty your mind
Drift it all out on the breeze
Get away with you
Get away from me
Get away from all of it across the sea
Get away with you
Get away with me
Get away with all of it across the sea
```
