Goin' Outta Business

Babyface

You can take your Usher CD
I will take my luther with me
You can take Jaheim, as if
I'd let you take my Pendergrass
You can keep that ghetto chain
Better leave that diamond ring
You might as well get used to no more wearing it
You can tell your friends things wont be like they was before
All your flossing, all the shopping I was paying for
You can act like you ain't sorry now but I no i'm gonna be missed, when it all comes down to this

We're going outta business
Shutting down the doors
Everything's on clearance, closin' up the store
Don't act like you don't hear it, don't act like you don't know
We're going outta business everything must go

You better pay your cable bill
Common girl lets be for real
You're the one that had to have your Oprah and your Dr. Phil
Don't you touch that sofa bed girl you know I paid for it
Can't have you and him on it up there having sex
You can tell your friends why not why were not down no more
You can tell them it was not what I was wishing for
You can act like your not sorry no more
Girl I know i'm gonna be missed when it all comes down to this

We're going outta business
Shutting down the doors
Everything's on clearance, closin' up the store
Don't act like you don't hear it, don't act like you don't know
We're going outta business everything must go
We're goin' outta business
Counting down the days
No terms and no conditions
In the final stage
Don't act like you ain't with it
Don't act like you don't know

You can take them stupid lies
Put it were the sun don't shine
Take them to the girlfriend hat will always sit inside your mind
And if you apologize – too late – we're outta time
Wen it all comes down it all comes down to this

We're going outta business
Shutting down the doors
Everything's on clearance, closin' up the store
Don't act like you don't hear it, don't act like you don't know
We're going outta business everything must go
We're goin' outta business
Counting down the days
No terms and no conditions
In the final stage
Don't act like you ain't with it
Don't act like you don't know
