

## She

**Babyface**

First time I saw her it was heaven  
Prettiest thing I'd ever seen  
I knew from that moment she was the only girl, I love her  
That's when she gave her heart to me

She belongs to you and me  
She's the angel in our dreams  
Thank you lucky stars, she fell in love with me  
Were not for her, you and I would never be

Sometime in December was the day you were conceived  
We were as close as close could be  
Now you cant remember but the day hat you were born  
You were even closer then me

God only knows how much she loves you  
Well I've just as much as she, yes I do  
Boy I only hope when you grow up you'll find a woman  
That will love you like your mother has loved me
