

Right Now

Babyfxce E

I see you dancing across the club
Keep on tryna get my attention
Whatever you on I'm on
I'm just tryna see if you with it

If it ain't making money
It ain't making sense this shit is so simple
Buy her a flight just to see me, that's really paying a visit
I just want your time baby

I don't even care how we spend it
Them other niggas just be talking
See how I'm standing on business
I need a girl that's gon understand me

Know that I come from the trenches
She wear designer she cook better than Kya and she know how to listen
Come on baby, tell me if you doin this shit or not
Tell me that shit right now, Yeah

Tell me that shit right now
Tell me if you still gon be here if this shit lit or not
Tell me that shit right now
Tell me that shit right now

Come on baby, tell me if you doin this shit or not
Tell me that shit right now, Yeah
Tell me that shit right now

Tell me if you still gon be here if this shit lit or not
Tell me that shit right now
Tell me that shit right now

Is you still gon be here if the motion drop (you staying?)
I know I had hoes for a lil minute, but bae I'm focused now
Every time I leave, she go up to her window and watch me roll it out
Picking her up in a Hellcat everyday
I got her knowing the sound
I like the way that you dress, I like the way we sex
I like the way that you understand that I'm busy
I'm probably gonna send you a text
I like the way how I don't gotta say nothing
You just start giving me neck
I just wanna know when we hit this club
Is you gon be in my bed

Come on baby, tell me if you doin this shit or not
Tell me that shit right now, Yeah

Tell me that shit right now
Tell me if you still gon be here if this shit lit or not
Tell me that shit right now
Tell me that shit right now

Come on baby, tell me if you doin this shit or not
Tell me that shit right now, Yeah
Tell me that shit right now

Tell me if you still gon be here if this shit lit or not
Tell me that shit right now
Tell me that shit right now
