

## See U Again

Babyfxce E

(Let that shit ride 88)

Last time we left  
I thought I would never see you again  
Can't nobody play me like no ham  
I'm just not one of them  
Up the fye then shoot em 7 times

I catch em running in  
Come outside I'm tryna do that to you bae I'm on that rim  
I ain't been the same since you left  
Water running round my neck but I can't drown tryna hold my breath

I shoot first ain't got no time for blood  
Be running down my chest  
Hit em with the fye They prob won't  
See you againnn

If I please a bitch once she gon tear up the block  
She so mad I ain't answer the phone  
Because she just want me to tear up the box  
Them 6-2 bullets That come out the drac

Do way more damage than that little bitty Glock  
She wants us to be together  
But I just can't  
Cause that shit is a lot on bro

Really ain't no love in this shit  
Do a hunnid if the flick  
There's too much guns in this bitch  
I swear if he crash out we still hop out

And run with my shit  
Until I put my people on  
I can't have fun with this shit  
On bro

Bump my head just so I can know  
Bra let me drive I know where to go  
My bitch in the sky  
My bitch kinda fire she know where to go  
My bitch kinda fire she know that she cold

She still by my side she know that it's smoke  
She want my heart still knowing it's broke  
I love my niggas to death  
But if he not riding for me he's breaking the code

Riding the Glock with the ticket  
If they get up on me I promise I'm bagging them both  
Last time we left  
I thought I would never see you again  
Can't nobody play me like no ham  
I'm just not one of them  
If they fire then shoot em 7 times

I catch em running in  
Come outside I'm tryna do that to you bae I'm on that rim  
I ain't been the same since you left  
Water running round my neck but I can't drown tryna hold my breath

I shoot first ain't got no time for blood  
Be running down my chest  
Hit em with the fire/five? They prob won't  
See you againnn

See you again  
I thought I'd see you again  
See you again  
I thought I'd

Last time we left  
I thought I would never see you again
