

You're turning me blue
I'm afraid of giving my all
Afraid of what you might do
I can't help but tear us apart
I know I'll never be someone special
I'll never be the one that you want
I'll never be someone special
I'll never hold the key to your heart

You're turning me

You're turning me blue
I'm afraid of giving my all
Afraid of what you might do
I can't help but tear us apart
I know I'll never be someone special
I'll never be the one that you want
I'll never be someone special
I'll never hold the key to your heart

You're turning me blue

You're turning me blue
I'm afraid of giving my all
Afraid of what you might do
I can't help but tear us apart
I know I'll never be someone special
I'll never be the one that you want
I'll never be someone special
I'll never hold the key to your heart

You're turning me
You're turning me
You're turning me
