BabyJake

Yeah  
You see my passion  
I'm not ya average, baby  
Look at my actions  
I call you every day  
I do everything I can do  
Change up my schedule for you  
Take us on roadtrips  
But I think of you as the view

You are so beautiful, darling  
Where are you?  
I need you here  
Need you here  
I won't take nothing for granted, regarding our love, my dear  
Love, my dear

Baby, your boy took it coast to coast  
I promise I won't ever overdose  
Used go out, party all the time  
But now I finally got a light to shine  
Now I know I got you at the crib  
Now I know I got a different life  
Took me a minute, had to focus up  
But now I'm always working overtime

You always watching my back  
Least I could do is take care of the cash  
If I need a favor, you always say yes  
Even if you got some shit on your hands  
Never met me a woman with class  
Until I got drunk and ran into your ass (Damn)  
Thank God I met you that night  
Bought a cigar and asked for a light

Yeah  
You see my passion  
I'm not ya average, baby  
Look at my actions  
I call you every day  
I do everything I can do  
Change up my schedule for you  
Take us on roadtrips

Love, my dear

Woah  
I pull you close and never let you go  
Can't take it slow 'cause we been on the road  
And we'll never lose our control, no  
Things are so perfect, we're one in the same

Talk about timing, we're on the same page  
This seems so right, nothing's wrong, nothing's strange  
This is exciting and I just can't hide it

Yeah  
You see my passion
