

Helluva Night

BabySantana

It's been one hell of a night
It's been one hell of a night
Know you ain't mad for real
I know you just spoke out of spite
Tryna get gone for real
I just poured a four in my sprite
Young niggas fucking it up
I got this hoe falling in love, yea
Purple rain when I double my cup

You seen my tribulations I was down
Three different highs I'm off the ground
I done ran into a couple models
But you my favorite cause you stayed down
I done poured a couple fucking bottles
Nose red I'm looking like a clown
And I done fucked a couple supermodels
But you my favorite cause you stayed down
If anything we all
You wanna know what I like?
Before we did anything we always did us
I came in and fucked the game up
It's me, the rari or him, and the bus
I love my watches cause them bitches buss-downs

Drop a bunch of Chanel on my bitch
Jump out gang I'm toting that shit
My niggas thuggin no barter-6
Hop out gang go retarded bitch
It's a whole lotta red on my arm
My wrist on Playboi Carti bitch
Walk in dover street market bitch
Empty my fuckin wallet bitch

It's been one hell of a night
It's been one hell of a night
Know you ain't mad for real
I know you just spoke out of spite
Tryna get gone for real
I just poured a four in my sprite
Young niggas fucking it up
I got this hoe falling in love, yea
Purple rain when I double my cup
