

# Never Sober

BabySantana

I got all the gas my client never sober  
We could take it all the way  
Did this shit the harder way  
It feel like you reached inside my chest and took my heart away  
Took my heart away  
Took my heart away  
First I had my guard up  
Then I put my guard away

I don't play with that ho she act childish  
I get turnt when I'm off of that molly  
Got a white ho on me look like Miley  
Soon as I walk in let's get it started  
Puffin clouds I'm blowing the exotic  
Teach you how to mix like this shit science  
When I walk in everybody silent  
Did this shit and I ain't have no guidance

And I'm shittin on all of them niggas that hated on me and I'm leaving em silent  
When you come round baby I'm excited  
I could get that for you I supply it

I never stood on the curb  
I just pulled off in a Burban  
We ain't really got no moves so I hit up T and ask "What's the word?"  
Diamonds all on my neck  
All over my teeth  
And my girl  
And I told this bitch I love her  
But I lied  
So absurd

I got all the gas my client never sober  
We could take it all the way  
Did this shit the harder way  
It feel like you reached inside my chest and took my heart away  
Took my heart away  
Took my heart away  
First I had my guard up  
Then I put my guard away

I got all the gas my client never sober  
We could take it all the way  
Did this shit the harder way  
It feel like you reached inside my chest and took my heart away  
Took my heart away  
Took my heart away
