## Picture Me in a Hospital

## **Babyshambles**

Picture me in a hospital
The blood runs red and the bags are full of...
Oh it's terrible, makes me powerful
On and on there's still a song for me
I'm still around to sing it

Each man has a secret

To hide away

And never say, never know, and so it goes

Picture me in a hospital
The blood runs cold and hall are full of
Undesirables preaching parables
False alarm there's still a charm for me
Just wait and see

If each man had his freedom And it was ours to say How to behave, ho who's to say

So picture me in a hospital
Blood runs raw and the bags are full of
You're terrible and I'm invincible
Picture me in a hospital
The blood runs red and the bags are full of
It's hysterical, and it makes me powerful

False alarme there's still a song for me I'm just about around to sing it There's still a chance for me And I'm still here singing

And so it goes
On and on and so it goes

And so it goes.
