

Jamaica

Bachman-Turner Overdrive

When will these dark clouds disappear from view
When will the sun begin to shine
When will I once again be near to you
When will I know for sure you're mine

Dreaming of those Jamaican nights
Longing to hold you
Jamaica take me away
Take me away with you
Jamaica, I'm wasting away
Take me away with you
Jamaica take me away
Take me away with you
Jamaica, I'm wasting away
Take me away with you

When will these dark days disappear again
When will I finally see the light
How long must I wait
To have you here my friend
I want to be with you tonight

Dreaming of those Jamaican nights
Longing to hold you
