

## Life Still Goes On (I'm Lonely)

Bachman-Turner Overdrive

Standin' in the street, shaved, I'm washed and neat  
And the time is mine  
But I don't even know where I'm goin'  
Been too long in town, just workin' right tied down  
But I got my pay  
And I'm willin' to spend what I'm earnin'  
Maybe over town, where the say love can be found anytime of day  
I'll be lookin' you know I've been wishin'  
Need a lovin' face, nice hair, some fancy lace  
Someone soft and warm  
Then those nights spent alone won't seem wasted

Get me on down, get me into the place  
Where the beat of the street, and the people that meet  
Take the blues far away  
'Cause I'm lonely, ya baby I'm lonely  
And life still goes on where I'm goin'

Listen  
Can you hear me now  
Can you hear me I'm callin' for lovin'  
Hear me  
Won't you listen now  
Can you hear me I'm callin' for lovin'
