

# Panic

Backstreet Boys

Stop it, stop it  
Stop it, stop it  
Go, stop and go  
I just hit static  
I used to read you  
Loud and clear  
Not like this  
It's so erratic

And I'm not rational  
When I see you around  
Your inconsistency  
And you know it's dragging me down  
You're so conflicted baby

You're always walking away  
One step and everything's over  
And you're running back to me  
You say I let you down  
Baby take me in or just take me out  
I'm already dead  
I already said (I already said) I'm sorry

Stop it  
I've made mistakes  
I've been an addict  
A blind fanatic  
Don't you know  
You're not immune to the panic  
With somebody

When the snow hits your skin  
The cold don't last forever  
But you're livin' again  
If you don't let seasons change

You're always walking away  
One step and everything's over  
And you're running back to me  
You say I let you down  
Baby take me in or just take me out  
I'm already dead  
I already said (I already said) I'm sorry

How many times do I have to say it  
Before you believe me

Stop it, stop it  
Stop and go

Panic!

You're always walking away  
One step and everything's over  
And you're running back to me  
You say I let you down  
Baby take me in or just take me out

I'm already dead  
I already said (I already said) I'm sorry
