

A Day Late in My Dollar Shorts

Backyard Babies

Chances high, bets are low
You convincing me that this is a no-go
But you don't know what I know
Appetite, trust your thirst
Babblin' on 'bout not make the 21st
Hey, this bubble won't burst

If it won't work, it will work anyway
I didn't come here just to fade away
Just embrace the color gray
A day late in my dollar shorts
Go with the flow and the highest stakes
It will take whatever it might take
Move on up without no breaks
A day late in my dollar shorts

Running cold, the nordic noir
You stain me with your soggy golden star
You won't make it that far
Gate is closed, we're bouncing back
While you got hit by a lightning smack attack
Everything's gonna crack

If it won't work, it will work anyway
I didn't come here just to fade away
Just embrace the color gray
A day late in my dollar shorts
Go with the flow and the highest stakes
It will take whatever it might take
Move on up without no breaks
A day late in my dollar shorts

Silver lining, luck combining
Then the light's come shining from a spark
Like a diamond in the dark

If it won't work, it will work anyway
I didn't come here just to fade away
Just embrace the color gray
A day late in my dollar shorts
Go with the flow and the highest stakes
It will take whatever it might take
Move on up without no breaks
A day late in my dollar shorts
