

Ooh

You can call it bad seeds if you like
I go hide when lightning strike
But my intentions was never to harm you
You can call it bad seed if you want
A love disposal but I don't
'Cause my actions never meant to hurt you

You can call it bad seeds if you want
But I don't spare a second of thoughts to break up
This everlasting flow

And the bad seeds
And the good deeds
They are long gone
And the white nights
And the snake bites
They are long gone
No, I won't be taking this further
'Cause I hate all the things you become

You can call it bad seeds 'cause you can
A reinvested poor broken plan
And your calculations made it shatter
You can call it bad seeds but you knew
What I've been doing and what I do
Life priorities are calling

You can call it bad seeds if you want
But I don't spare a second of thoughts to break up
This everlasting flow

And the bad seeds
And the good deeds
They are long gone
And the white nights
And the snake bites
They are long gone
No, I won't be taking this further
'Cause I hate all the things you become
I hate all the things you become
I hate all the things you become
