Off the record, baby, I'm on track
Got a flat screen and a sazerac
Throw me the keys when we get outside
You only drive when you're driving me wild

I tell you some things I cannot prove
But I get nothing from you
The life you sold me did not come true
Yeah, I get nothing from you

I want applause and a pretty penny
But I got lime green in the first degree
You can get rich quick, you can get rich slow
My only drive with the radio
