

The New Stuff

Bad Bad Hats

I like the new stuff
And I won't go back
We had a good run
But it went too fast

Thought I'd forget it, put it on credit
Try another week
But you keep me stable and I read the label
And you got what I need

Baby, I'm not waiting
I'm just sticking around
Maybe I'm just lazy
Or I like when you're, I like when you're around

We drank the good stuff
At a cabin once way out of town
I never forgot us
But I needed to forget how we sound

'Cause I read your letter, but baby, you know better
Than to show up out of the blue
I say, "I never got it", smiling at the faucet
I guess I want to hear it from you

Baby, I'm not waiting
I'm just sticking around
Maybe I'm just lazy
Or I like when you're around
Baby, I'm not waiting
I'm just sticking around
Maybe I'm just lazy
Or I like when you're, I like when you're
I like when you're, I like when you're
I like when you're, I like when you're around
