I, I, I don't need message  
Saying I don't need precious

I don't need anyone here

Hey, you don't need a little baby  
You are great, you don't need a little baby  
Go your way, never stop for somebody  
Cos you do not need nobody

Yo its Bradford crew, come fuck with us  
Get the touch of the world, just watching us  
New play, come play, we just dropped it off  
High speed, 2 jeeps, we cut the fuss  
Stage door, big bro, so we revved it up  
At your, back door, better be ready to go  
At the shop floor, wanna spend a lot  
So I pull up, in a Bentley truck  
I'm above like fuck, I hit town with it  
Champagne sipping, got me nightlife living  
I like these woman, I might fly past with her  
Slide right in, since white line sinner  
Cream of the crop, I'll be leading a flock  
Might fly down, but its reading the shop  
Whole team tight like, peas in a pod  
And the engines big, so we're leaving the blood

No, Ducati to scatty for me, too right  
Too many got me thinking, that I'm do-lally

For the west side, look from the X5  
Red light, next flight, red light, we're bound to this one  
I'm on my 6-1, lets get pissed off  
Groups get ripped off, drink till we fall down  
Pour out, ball out, just swear I saw her  
I'm on the bar now, yo I'm a different breed  
Different jeans, drips on fleek, I'm a different league  
Boys don't fold, when the boys don't speak  
I made what you made last year, this week  
Plants in the pot, I caught me drop  
Dead beds, like block, we don't stop, for the cops  
Victory clash, passing the damn cash, in the stash  
There's bars in the bachelor pad

I, I, I don't need message  
Saying I don't need precious

Yo, put your guns up, put your b's up, wheel up  
Bounce to the beat, don't seize up  
Put your keys up, flex out, ease up  
Jump up up, for no reason, make a boy flip, in this bitch  
Shots at the bar I'm lit, then it's back to the grip, let's dip  
I don't wanna go, but I'm on a roll  
I don't wanna fall, like dominoes, so I got a chip  
Then it's back to the beats, where the crews at, crews at  
Hitting nice things, in that new jack, Move back  
Coming for the beat beat, with the top draw  
Pull up in that new jeep, just like before  
Fuck your boyfriend, he's a lost cause  
If I fly around, slide round, know it goes off  
Pull up in that range, pull up in that rover  
Tell her roll up, man I'm coming over
