

Have You Ever Had A Love Like This

Bad Boys Blue

You light my life when you're with me
You're like a sun rise deep down in the night
For you can touch my heart with sensuality
I'm in paradise, must be in paradise

Have you ever had a love like this
It's so heavenly when we kiss
Have you ever had a love like this
Such a feeling that you have missed
We are two in a million

You need no strings to bind my hands
For you have chained my heart so close to you
I pray that our love will last for all my life
Till the end of time
Until the end of time

Have you ever had a love like this
It's so heavenly when we kiss
Have you ever had a love like this
Such a feeling that you have missed
We are two in a million
