

# When Our Love Was Young

Bad Boys Blue

In my fantasies  
I am going through the scenes  
Of the love we had  
Sweet emotions that we shared  
What I see  
Is forever you and me  
And I'm longing for the time  
When your heart was mine

Remember when our love was young  
A burning flame all summer long  
I still hear those melodies  
And I feel a cooling breeze

We have shared one world  
Hand in hand just for a while  
And on wings of love  
We've been flying up so high  
Until now  
I can understand somehow  
What had torn our dream apart  
How you broke my heart

Remember when our love was young  
A burning flame all summer long  
I still hear those melodies  
And I feel a cooling breeze  
Remember when our love was strong  
Two loving hearts beating like one  
What remains are memories  
And I feel a cooling breeze
