

## Like Water

**Bad Company**

My life is like water and I'm floating in the sea  
But i have a root in the water  
And it's reaching stretching endlessly  
My love flying in the sky  
And far away from the water she lies  
Sometimes big wave coming when I'm down  
But soon i stand on up again

My life is like water and I'm floating in the sea  
My soul is a stream on the water  
I was born reaching endlessly

My life is like water and I'm floating in the sea  
My soul is a stream on the water  
I was born reaching endlessly
